Best Practices in Brain Injury Services Conference**

**“Shattering the Myths,
Unmasking the Opportunities”**

**Break Out
Thursday, March 2, 2017
4:00pm-5:00pm**

June Klein-Bacon, BSW, CBIS

June Klein-Bacon joined Brain Injury Alliance of Iowa in October 2013 as a Neuro Resource Facilitator in our Waterloo office. In addition to providing Neuro-Resource Facilitation to Northeast and North Central Iowa, she also serves as Project Manager coordinating deliverables on our Administration for Community Living contract. June is also involved at multiple tables for systems and public policy advocacy.

Brain Injury and Incarceration

Individuals that attend this session will have an opportunity to review and participate in discussion about the impact of our current criminal justice system and individuals who experience brain injury. Recognizing a lack of awareness on this topic, attendees will have an opportunity to discuss challenges in the current construct of the criminal justice system that include lack of screening and assessments for brain injury, concerns around navigating incarceration programs as well as finding success in re-entry programming for those that experience brain injury.

Objective:

- Attendees will learn about the prevalence of individuals who experience brain injury that intersect with the criminal justice system
- Attendees will learn about the use and status of screenings and assessments for brain injury in the criminal justice system
- Attendees will review results of needs assessment that include areas of strength and barriers for individuals experiencing brain injury within the criminal justice system

Target Audience:

Case managers, counselors, professionals

*Not limited to target audience
