

“SWAPS and EmReg: Evidence-Based Interventions for Brain Injury Related Problem Solving and Emotional Regulation Challenges”

Thursday, February 28, 2019 | 3:30-4:30pm

About the Speaker

Dave Anders is an Iowa licensed Speech-Language Pathologist who has been practicing in the field of brain injury for 21 years and currently holds the position of clinical director at On With Life. Dave is a member of the Brain Injury Alliance of Iowa board of directors and received certification as a Brain Injury Specialist Trainer through the Brain Injury Association of America in 2012. He has presented regionally and nationally on a variety of topics related to acquired brain injury.

Dave Anders, MS, CCC-SLP, CBIST

On With Life, Director of Therapy Services

Description

The purpose of this presentation is to provide brain injury survivors, families, and professionals with an overview of evidence-based interventions to address brain injury related problem solving and emotional regulation challenges. The session will provide both a theoretical overview and functional application training in the SWAPS and EmReg interventions.

Objectives

1. Identify the clinical indications for application of the SWAPS and EmReg interventions with individuals with brain injury.
2. Identify the steps associated with the SWAPS intervention in clinical application.
3. Identify the steps associated with the EmReg intervention in clinical application.
