

Michael Hall, PhD

Iowa City Veterans Affairs Medical Center, Neuropsychologist
University of Iowa, Adjunct Professor of Psychiatry,
Vice Chair of Iowa Advisory Council on Brain Injury

Dr. Hall completed his doctoral training at Kent State University and went on to complete neuropsychology fellowship at Harvard Medical School. He currently works as a staff neuropsychologist at the Iowa City VA Health Care System where his particular clinical and research focus has been on the co-occurrence of TBI, mental health, and medical problems. Clinical work includes neuropsychological and psychological assessment, as well as psychotherapy. He is also very involved in training. Dr. Hall also works with Veterans in rehabilitation following injury with a particular focus on post-injury return to employment. He has been involved in systems program development and research with a rehab focus. Dr. Hall is an Adjunct Professor in the Psychiatry Department at the Carver College of Medicine at the University of Iowa and serves as the Vice Chair for the Governor of Iowa's Council on Brain Injury.
